RESONANCE SCHOOLS
THE EQUATION FOR EXCELLENCE

QUESTION.
IMAGINE.
CREATE.
IMPACT.

ZERO TO ONE IDEA

Every game-changing idea begins with a question.

STUDENT INNOVATION & IDEATION SHEET | September 2026 | Grades 6–10

Student Name: _____ Grade & Section: _____ Campus: _____

FROM AN IDEA TO IMPACT

Every meaningful innovation begins with a question. Someone observes what already exists, identifies a problem, limitation or possibility, and asks:

"CAN THIS BE DONE DIFFERENTLY?"

This September, let us explore how two innovators challenged existing limitations and turned their thinking into ideas that created an impact.

THE QUESTION

Why should a rocket be used only once?

THE IDEA

SpaceX worked towards developing rockets whose major components could return to Earth and be used again instead of being discarded after a single launch.

THE IMPACT

Reusability opened new possibilities for reducing the cost and waste involved in space launches.

THE THINKING

USE → RETURN → REUSE → REDUCE COST

THE QUESTION

Why should high-speed digital connectivity be expensive or inaccessible to many people?

THE IDEA

Jio focused on making high-speed digital connectivity more affordable and accessible to a much larger population.

THE IMPACT

It contributed to wider access to digital connectivity and encouraged greater use of mobile data and digital services across India.

THE THINKING

TECHNOLOGY → AFFORDABILITY → ACCESS → IMPACT

WHAT CAN YOU IMAGINE?

NOW IT'S YOUR TURN TO THINK.

You do not need to build a working model at this stage.

We want to know

YOUR IDEA.

QUESTION → IMAGINE → CREATE → IMPACT

YOUR IDEA MATTERS

Think differently. Imagine possibilities. Share your idea.

Selected innovative and meaningful **Zero to One** Ideas will be featured in upcoming editions of the **Resonance Schools Newsletter,** giving students an opportunity to share their thinking with the wider Resonance community.

YOUR IDEA COULD BE THE ONE WE FEATURE NEXT!

QUESTION WHAT EXISTS.
IMAGINE WHAT'S POSSIBLE.

ZERO TO ONE IDEA

STUDENT INNOVATION & IDEATION SHEET

September 2026 | Grades 6–10

1. MY QUESTION

What problem, limitation or possibility would you like to think differently about?

Begin with Why...? Why can't...? What if...? How can... ?

My Zero to One Question:

_____

_____

_____

2. MY IDEA

What new possibility can you imagine?

Name of My Idea: _____

Describe your idea briefly:

_____

_____

_____

3. VISUALISE YOUR IDEA

Show us what you imagine.

Draw or sketch your idea. You may label the important parts to help us understand your thinking

Sketch here

4. HOW DO YOU IMAGINE IT WOULD WORK?

Explain your idea in a few simple steps or sentences.

_____

_____

_____

_____

5. THE IMPACT

If your idea becomes possible, what difference could make? **Who could benefit from your idea?**

_____

_____

Could it make something more **affordable, accessible, reusable, simpler, safer, smarter or better? How?**

_____

_____

6. MY ZERO TO ONE IN ONE SENTENCE

Complete the thought:

My idea is _____

It can make a difference by _____

_____

THINK DIFFERENTLY. CREATE MEANINGFULLY.

QUESTION → IMAGINE → CREATE → IMPACT
